standard vision program

The UnitedHealthcare Visionsm Standard Vision Program is part of your medical plan and includes a routine vision exam at your current copay. In addition, you will receive Preferred Pricing on eyeglasses and contact lenses.

standard vision program

Focus On Value

Eyeglass frames and lenses are an investment in better vision. When you purchase your eyewear from our Routine Vision Network providers, you'll benefit from Preferred Pricing on frames, lenses and lens options.

Preferred Pricing helps ensure that an equivalent value is offered at each dispensing Routine Vision Network location.

Focus on Quality

Routine Vision Network providers participate in our credentialing process, are subject to a Quality Assurance Program and are contracted to adhere to strict quality and service standards.

With leading national labs providing fabrication of eyewear, we adhere to strict standards for quality, service and turnaround time. Frames — including designer styles — are provided by leading frame manufacturers/importers, with standard warranties against defects.

Quality and Affordability

Frames

You receive the best value (cost and quality) from your vision care program when you choose frames from the Routine Vision Program Selection.

All frames on the market today are offered with Preferred Pricing.

Popular styles for the whole family, including metal, plastic and titanium.

Lenses

Lenses include all powers and sizes, and are provided by leading national labs, contracted to quality and service standards.

Preferred Pricing on all lens materials, styles and options offering important vision benefits, such as progressives, anti-reflective and UV coatings, tints and more.
